Active through October 27, 2027. UEI P7VFNJ8ESXH2, CAGE 26X48.

Texas ESBD / CMBL — HELD
Registered October 2, 2026, through September 28, 2027.

City of Mission, TX (ProcureWare) — IN PROGRESS
Submitted on October 23, 2026, and waiting on the city's confirmation.

HUB (Historically Underutilized Business) — NOT YET
Not certified, not applied for, and not claimed anywhere on this site.

Small business — IN PROGRESS
Small under every code here, to be self-certified in SAM. No socioeconomic set-aside certification is held or claimed.

HOW WORK CAN BE PLACED

- **1. Purchase card, under the micro-purchase threshold**
  A purchase card may suit work within your agency's micro-purchase authority. Confirm eligibility, the applicable threshold and required approvals with your contracting office. We price the work on a scoping call.
- **2. Simplified acquisition**
  Your contracting office determines the applicable acquisition procedure. We can provide a quote against a defined statement of work.
- **3. Subcontract or teaming**
  As a subcontractor to a prime already holding the vehicle. Often right where our scope is one part of a larger program.
- **4. State and local solicitation**
  Directly, under the relevant state or municipal code, once the registrations above are complete.

COMPANY DATA

Hyrax LLC d/b/a Computing America
HQ: Texas, United States
UEI: P7VFNJ8ESXH2
